

U11 Female Program 2024

All players in U11 Female will play Female Recreation. The development & recreation model from last season will be changing this season.

U11 Female will have two teams. There will be two evaluation skates for each player. We will use the evaluation skates to divide the players evenly and create balanced teams. The coaches for the female teams will be Randy Cichon and Reid Drummond.

The teams will practice together, focusing on development for all players. They will play in the Female OMAHA district league with other associations in the region.

U11 Female Recreation Evaluation Skates:
September 14th & 15th 9:00-10:00am at Brock Arena

We will be offering a U11 Female Development program for any players interested in a larger commitment and higher end competition. This program will be in addition to the recreation team. To be eligible players will have to try out and be selected for this program.

This group will receive a weekly full ice practice in addition to the weekly recreation practice. The additional practice will likely be a morning practice before school. The plan is to attend two out of town tournaments with this group. Tryouts will be at the same time as the recreation evaluations.

There will not be a fee to tryout for the development group. Anyone who has registered for female development already will be refunded their tryout fee. Those players will stay on the development tryout list. Any other players interested in being included in the development tryouts, please email kamhockey@telus.net

The head coach for the U11 Female Development Program will be Reid Drummond.

If selected to the program, there will be an additional fee to KMHA of \$250. This is to cover the extra ice and other expenses.

Tryouts will take place at the recreation evaluation skates on September 14th & 15th 9:00-10:00am at Brock Arena.

Please note that players must be in the female program to be eligible for the development group.
