

U11 Female Development Program

We will be offering a U11 Female Development program for any players interested in a larger commitment and higher end competition. This program will be in addition to the recreation team. To be eligible players will have to try out and be selected for this program.

This group will receive a weekly full ice practice in addition to the weekly recreation practice. The additional practice will likely be a morning practice before school.

The plan is to attend two out of town tournaments with this group. Exhibition games are a possibility. Tryouts will be at the same time as the recreation evaluations.

If selected to the program, there will be an additional fee to KMHA of \$250 . This is to cover the extra ice and other expenses. Players must be in the female program to qualify for the development group.
